

## I am crazy about anything diesel related

Squirrel, 35 years old, 12 years on death row

You can call me Squirrel. I am 35 years old and have been incarcerated since forever.

Locked up at 18 years old. I find much joy in making my wife and family laugh, I love a good joke.

I am crazy about anything diesel related. Cars, trucks. Mechanics is a passion. As a kid growing up, my father has only ever done two things. He either drove a semi-truck that transported heavy construction equipment, or he was a mechanic. I was always with him, and eager to learn. Which led to me having a love for anything diesel related. The sound, smell. Everything. Along with a passion for mechanics. He taught me how to fix and modify engines and so much more, I could never get enough. Fun fact, my first car was a 1964 and 1/2 Ford Mustang.

I'm a cat person and I miss the outdoors like camping and fishing the most. Every summer, my dad would take me and my older brother camping at the lake. We would take our motorcycles (dirt bikes) and sometimes our cousin let us borrow their jet ski. We always went to the same spot and we stayed for a full week. We would fish and catch crawdads at night and ride our bikes or swim during the day. We always brought and ate the same kind of food. To this day, any time I eat some Frito's Chili Cheese Corn Chips, I can actually picture the lake, or the camp. These are some of my fondest and most treasured childhood memories.
